Noun verb adjective adverb dictionary pdf free online pdf password remover

turn off shut down power down end a session on the computer by closing an application or removing power I'm tired, so I'm going to shut down the computer for today. Some computers took a long time to boot up, or get ready to run programs. a menu of options Look for the file menu and pull down to "Save As…" click on move a mouse over an item and press to select Click on the start menu to begin. print out printout v. Like now, we started a computer by hooking up wire cables and then powering it up or turning it on. Get off what we called "the information superhighway" and take a walk outside. We have been logging in ever since then. A user who stores many large files will soon run out of room on the computer, so keeping files on an extra hard drive is a good idea. connect to a computer using a username and password n. browser – n. set up v. To log in is to enter a code, key or password to gain access to the computer's abilities. After opening a program, you choose commands from a menu. These menus are stored in a pull down or drop down bar near the top of the screen. sign up register with a service She signed up for an online dating service. We offer tutoring programs for students in K-12, AP classes, and college. go down stop operating properly I cannot send any emails because the server went down. a printed document I have to print out the directions before I leave home. Since the sky is a noun, and beautiful is used to describe it, that makes beautiful an adjective. An example of an adjective would be "beautiful". Other examples of adverbs include: nicely, proudly, slowly, and firmly. Run is a word to describe someone or something who is moving faster than a walking speed. A wheel on the mouse allows you to scroll up or scroll down to read a web page. To learn more about how we help parents and students in Columbus, Ohio visit: Tutoring in Columbus, Ohio. a group of wires, glass fibers, etc., covered in plastic or rubber and used to carry electricity or electrical signal upgrade – n. to appear suddenly n. page or act of registering permission to use a program To begin, log in to your desktop system. hook up to connect wires from machines to a power source or other machines Would you please help me hook up the Internet cable? send an electronic document to a printer n. (of language) relaxed in tone; not suited for serious or official speech and writing cable – n. An easy way to spot an adverb is by their ending, since they often end in the letters ly, like quickly. Welcome back to Everyday Grammar from VOA Learning English. choose from a menu of options in a computer application extending down from the action bar like a window blind n. That means you can put a pronoun between the verb and preposition, as in "Let me print it out for you." Even when we use passwords, criminals have learned to enter a computer or a network without permission. When we sign up to use a website, we key in our name and email address. Now, we do not have to wait as long. Now it's your turn. power up turn on provide power to a machine Press the red button to power up your tablet. hack into enter a computer or network illegally Someone hacked into my bank and stole millions of dollars. a computer program that is used to find and look at information on the Internet specific – adj. Some words can be used as either a noun, verb, adjective, or an adverb. scroll up scroll down to move slowly to the top or bottom of a text The news story was so long I had to scroll down a lot to read it all. This feature is part of the browser software. opt in / out choose to receive advertising or messages The company asked me to opt in to get special offers by email. Nouns A noun is a person, place, or thing Some examples of a person are: sister, friend, Alex, Stephanie, you, me, dog Examples of places are: house, beach, New York, playground, the store Things (can be physical things or ideas): chair, pencil, thoughts, memories, and knowledge. Dr. Jill Robbins wrote this story for Learning English. They are hacking into the network. Adverbs Adverbs are words that describe verbs. That is, copy files and folders to another location, like an external disk drive. That is why you back up your system. go online/offline to use the Internet / not use the Internet I will send you that information as soon as I can go online. They are used to describe nouns. Getting off the grid If you think that the Internet is full of too many advertisements, and your email is nothing but spam, just click on the menu to shut down and turn off your devices for the day. back up backup v. Experts tell us, "Put your backups in a safe place." My parents used to print out their emails because they wanted to keep a permanent copy, and here is another new noun: a printout. They create a large list of users from their email addresses. to remove (something unwanted) by using a filter spam – n. Wait! There is one final phrasal verb to describe that: go offline. Does your language borrow English phrasal verbs for computer terms? Other examples of verbs include: sing, watch, play, sleep, study, walk, and think. Speaking of browsers, another phrasal verb that became a noun is plug in. filter out remove unwanted email messages Can we filter out all the spam on this account? boot up start up begin running a computer system Wait a second, my computer is booting up. That bar is often called the navigation bar or nav bar. This is our third episode on phrasal verbs. an advertisement that appears suddenly on a computer screen If you do not want to see the ads, turn on your pop up blocker. This phrasal verb became a noun, too. And I'm John Russell. This created a new noun from the phrasal verb, popup. to install a new computer program or assemble a computer system n. wipe out completely erase or delete files Before you donate your computer, be sure you wipe out the hard drive. The following chart has some examples of words that you can change to be different parts of speech. Annoying advertising Internet advertisements, or ads, pop up on the screen over a web page. Storage and other problems Installing upgrades can sometimes damage files. a word that describes a verb, an adjective, another adverb, or a sentence and that is often used to show time, manner, place, or degree informal – adj. A disaster could happen if the hacker wiped out, or erased, all the information on a computer system. Other examples of adjectives are: blue, dark, warm, happy, good, and fast. the process of adding information using a computer program This application took a long time to set up. We can click on an arrow to move to the next screen, too. Getting started Let's go back to 1969, when the first verb sent over the Internet was a phrasal verb: log in. For Learning English Everyday Grammar, I'm Jill Robbins. Therefore, quickly is an adverb. an extra copy of a file Be sure you back up your files before you change systems. It is natural that the language of computers would also change and be informal. having a particular function or effect opt – v. Noun Verb Adjective Adverb decision decide decisive decisively creation create creative creatively sadness sadden sad sadly action act active actively quickness quicken quick quickly heal health healthy healthily SchoolTutoring Academy is the premier educational services company for K-12 and college students. insert a cord into an outlet or port n. Here is a list of the phrasal verbs in this story: Phrasal Verbs for Technology and Computers Phrasal Verb Meanings Example log in sign in sign-in v. key in type or enter characters using a keyboard It takes too much time to key in that long password. Many of those nouns grew out of phrasal verbs, as you will learn in this episode. When we give instructions to a friend about using a web page, we can say, "Look in the nav bar for the pulldown and choose a command." Another verb that describes up-and-down movement on the screen is scroll up or scroll down. Then we click on the icon, or image, for a program to run it. a word or group of words that is used with a noun, pronoun, or noun phrase to show direction, location, or time, or to introduce an object adverb – grammar. So, users should always back up their files. You know that you can plug a wire into the wall. Hacking can make computer systems go down, or stop working. The digital age has created many new words and phrases in English. Today we look at very current phrasal verbs: ones used with technology. The phrasal verb print out is a separable phrasal verb, like the ones we talked about in a previous episode. Beautiful is a word to describe someone or something. make an extra copy of a file n. Not only is the language of technology full of phrasal verbs, it is also full of new nouns. Verbs Verbs are action words! They are used to describe things that nouns do! An example of a verb would be "run". As you know, a phrasal verb is a phrase with two or more words: a verb and a preposition or adverb, or both. plug in plug-in v. People said they needed a tool to block those annoying ads, so the "popup blocker" was born. For example, quickly is an adverb because if you say you walk quickly, walk is the verb, and quickly is describing how you walk. For example, the sky is beautiful. Now, we add small programs to perform specific tasks in the computer, and call them plugins. Sometimes we say we have to sign in to a web page. an addition to a software program that performs a certain task Plug in your laptop over there. Companies often will ask for your email address. Usually though, you'll have to change the endings of the words depending on how you want to use them. to choose to do or be involved in something filter – v. _____ Words in This Story preposition – grammar. pull down pulldown v. Understanding the parts of speech will teach you to use words properly in a sentence and become a better writer. The world of technology is fast-changing, and it has broken many traditions. The organization running an online service usually asks us to opt in, or choose to receive email messages. There are so many of these emails now that many people try to filter out all messages from advertisers – otherwise known as spam. This leads us to our first noun from a phrasal verb, pulldown. To install new applications on the computer, users run a set up program. Adjectives Adjectives are describing words. A click of the mouse – the hand-held device that guides the cursor around the computer screen – shows more commands on the bar. e-mail that is not wanted or e-mail that is sent to large numbers of people and that consists mostly of advertising There are several different parts of speech, which are categories of types of words. Do you know any new expressions to talk about our digital life? Usually those messages are asking us to buy products. Write to us about them in the Comments Section or on our Facebook page. run out of exhaust a supply of something You will run out of disk space if you save copies of all your emails. an occurrence in which one thing is replaced by something better, newer, more valuable, etc. pop up popup v. We are going to talk about four of the main eight parts of speech, which are nouns, verbs, adjectives, and adverbs.
